OUR TRADEMARKED QUICK-DRY CUSHION FOAM

Cloud Dry(TM)

Rain flows through. Comfort stays put.

Cloud Dry(TM) is an open-cell reticulated foam made for cushions that live outside. Instead of soaking up a downpour, its open cells let water pass straight through - and the same open structure lets air circulate freely, so cushions dry in hours instead of days.

Rain runs right through - open cells drain water instead of trapping it, so cushions never sit soggy after a storm.

Dries in hours - air moves freely through the foam's open structure, speeding drying after rain.

Stands up to the outdoors - sheds the trapped moisture that leads to mold and mildew, and holds its shape season after season.

Same comfort, rain or shine - a supportive, resilient core that bounces back - no waterlogged sit.

Ask for Cloud Dry(TM) fill on any of our collections when you order.

Cloud Dry(TM) is a trademark of The Cushion Store.

Ordering Information

1. Find your fit

Open your brand's section, match the style number or measure your frame, and note the size. Sizes listed are approximate.

2. Pick a fabric grade

Prices are listed by grade from A/COM through E. Supply your own outdoor-rated fabric (COM) or choose from our fabric books. Yardage requirements (COM RQMTS) are listed per item.

3. We cut & sew

Every cushion is made to order in Milwaukee, Wisconsin. Fill, ties, and welt options are noted per collection.
